ENVIRO-SAFE® *means*

- GOOD FOR YOU
- GOOD FOR THE ENVIRONMENT

SUPERIOR LAMP - ENVIRO-SAFE® SINCE 1977

Since 1977, 100% of our products have been ENVIRO-SAFE®.

To be ENVIRO-SAFE®, our lighting products have to meet at least one of the following criteria:

• Save Natural Resources

-Our long-life designs last many times longer than standard lamps. For example, our Lumi-Twist™ spiral lamps outlast the standard incandescents they replace by 24 times. Our Heavy Duty™ Electronic Ballasts are guaranteed to last 50 years. Our Heavy Duty™ Fluorescents outlast standard lamps up to 10 times.

• Save Energy

-Our Heavy Duty™ Fluorescent Ballasts can save up to 44% energy. Our Lumi-Twist™ spirals save up to 83% energy. Our Heavy Duty™ Compact Fluorescents can save up to 83% energy compared to standard incandescents! Superior Lamp offers some of the most energy efficient lighting products on the market.

• Environmentally-Friendly Design

-Our Heavy Duty™ fluorescent lamps have always led the industry in low mercury content, and we intend to keep taking it lower. Our 4' T8 Heavy Duty Freshwite® Xtrabrite contains only 3.8mg of Mercury, 74% less than industry average!

Superior Lamp's product line is the industry's finest in environmentally-friendly lighting products, and we will continue to lead the way with our ENVIRO-SAFE® commitment.
